

Campus interviews at Malla Reddy Engineering College – Iatros Health Care

Hello Mr. P. Hanumantha Rao Sir,

Further to the discussion, please find appended below the job profile that we are evaluating the students from B Tech; M Tech & B Pharmacy; M Pharmacy

About us: - In today's complex healthcare environment, the increasing pace of change, the difficulty to optimize reimbursement, the need to manage and control overhead costs, and constant exposure for liability - are experienced by healthcare practices and physicians across the United States. We are not just a typical billing company. We are your partner and our organization has a large stake in your growth and success. We employ a team whose sole purpose (and livelihood) is centered on working alongside you and helping your practice optimize revenue and focus on patient care. For more information, please browse www.iatroshealth.com

Iatros Healthcare invites candidate with excellent oral / written communication and analytical skills for its Product Development (team involved in developing web based Dot Net products. Students from all branches are eligible to apply for the trainee developer position) & Revenue Cycle Management (RCM) division to join as Trainee Developer & Trainee Analyst.

As we are building a world class organization here in Hyderabad ([H.No.6-1-1063](#), Ground Floor, Anand Plaza, behind Sandhya Hotel, Opp. Dist. Collectorate (Ranga Reddy), Lakdi-ka-pul, Hyderabad, Andhra Pradesh-India – 500004) India on all the verticals of Product Development & RCM, we are in the process of hiring MBA fresher's as Interns who can join us immediately to support all our activities and events

Job Role: (Engineering Students – Product Development):- Students with excellent communication skills; logical skills; programming skills; zeal to learn and work on Dot Net technologies
