

VISIT TO VILLAGES

The students of M.B.A. have already planned to adopt villages and try to do their best in the development of villages. In the process a team consisting of R.Narender Reddy, M.Shekar, G.Vijay Kumar, A.Tirupathi Reddy visited the near by villages. They met the school headmaster, students of the school, Village sarpanch, ward members and other locals . They studied the various problems being faced by the villages like electricity, water supply, roads, teaching facilities and employment opportunities, awareness of various schemes that are available for village development. This constant interaction between the students of this institute and the villagers will continue to ensure the villagers get the help and the encouragement to develop themselves and their village into model villages. To start with, they planned to take up "Education at Primary Level" as their first project.
